

EVIDENCE + ASSUMPTION BOOK

WHAT IS SOURCED. WHAT IS ASSUMED. WHAT MUST BE VALIDATED.

Evidence cut-off: 06 Sep 2026 | No primary-research appendix included

READING GUIDE

Four evidence labels prevent false precision.

1 SOURCED FACT

Published source or official product information.

2 CASE ASSUMPTION

A model input chosen to test commercial viability.

3 PROPOSED ELEMENT

A future pack, price, target, program or creative execution.

4 VALIDATION GATE

A condition that must clear before scale or external use.

Core rule: consumer offtake is not Galderma net sales. All India pack claims, active-ingredient language and usage instructions require Galderma Medical and Regulatory approval.
