

BENZAC SKIN SCHOOL

FIRST-ACNE EDUCATION WITHOUT SHAME OR A SALES PITCH.

20-minute facilitator module | counselor present | no public diagnosis | no data capture

SESSION PLAN

20 minutes. Four useful moves.

0-3 MIN

NORMALISE

Acne is common; a spot does not define confidence.

3-8 MIN

MYTH-BUST

Toothpaste, scrubbing and picking can make things worse.

8-14 MIN

RIGHT ACTION

Gentle cleanse, right product, correct use and patience.

14-20 MIN

ESCALATE

Know when pain, persistence or scarring needs professional help.

Facilitator: dermatologist or trained health educator. School counselor or nurse remains present throughout.

MYTH CARDS

Make the right action memorable.

MYTH

“Toothpaste dries a pimple safely.”

RIGHT ACTION

Use a gentle cleanse and an appropriate product. Stop if irritation occurs.

MYTH

“Picking makes it heal faster.”

RIGHT ACTION

Picking can worsen inflammation and increase risk of marks or scarring.

MYTH

“More products mean faster results.”

RIGHT ACTION

Start simple. Follow approved directions. Avoid stacking harsh actives.

MYTH

“A patch can handle every kind of acne.”

RIGHT ACTION

Painful, deep, widespread, persistent or scarring acne needs professional evaluation.

FACILITATOR SCRIPT

Use plain language, not a lecture.

OPEN

“Most people get spots. Today is about knowing what helps, what does not, and when to ask for help.”

ASK

“What is the strangest acne advice you have heard?” Use anonymous hands-up or myth cards; never ask students to display their skin.

EXPLAIN

“The best first step is gentle care and the right product for the right spot. More products are not automatically better.”

CLOSE

“If acne is painful, deep, keeps returning or leaves scars, speak to a parent, counselor or dermatologist.”

STUDENT WORKSHEET

Take-home actions, no personal data.

MY THREE FIRST-SPOT RULES

1. _____
2. _____
3. _____

WHO CAN I ASK FOR HELP?

- ☐ Parent / guardian
- ☐ School counselor / nurse
- ☐ Pharmacist
- ☐ Dermatologist

Do not write your name, phone number, medical history or social handle on this sheet. It is yours to keep.

SAFEGUARDS

Education first. Consent always.

NO PUBLIC SKIN CHECKS

Never inspect, grade or photograph a student's skin in front of peers.

NO DATA CAPTURE

No names, selfies, phone numbers, medical histories or social handles.

NO SALES PITCH

No purchase CTA in the session or take-home education card.

CONSENT FOR SAMPLING

Any product sampling requires institutional and verified parent/guardian consent.

18+ CREATORS

Paid social extensions use adults, clear disclosure and approved claims.

REFERRAL PATH

Provide a neutral when-to-see-help route for painful, persistent or scarring acne.

PILOT SCORECARD

Measure the session, not the student.

CORRECT-USE COMPREHENSION**Target $\geq 70\%$**

Anonymous 4-question exit card

MYTH CORRECTION**Target $\geq 60\%$ lift**

Pre/post anonymous class poll

ESCALATION KNOWLEDGE**Target $\geq 80\%$**

"When should I seek help?" item

SAFEGUARD COMPLIANCE**Target 100%**

Facilitator checklist and incident log

PROGRAM REACH**600 schools by M18**

Aggregate attendance only

YEAR 2 DESTINATION**1,200 schools**

Proposed target; not current footprint
